Re: Investigative Order No. R4-2016-0024 to Provide A Technical or Monitoring Report on The Disposal of Well Drilling Fluids, Well Completion Fluids, and Production Fluids to Land for Drilling & Production Co. Oil and Gas Operations in Los Angeles and Ventura County, California

Dear Mr. Unger:

This is in response to Investigative Order No. R4-2016-0024 pertaining to oil and gas operations of Drilling & Production Co.

The Order is addressed to and cites "Drilling & Production Company" as an operator of record in Los Angeles and Ventura Counties. To the best of our knowledge, there is no such entity listed as an operator of record in California. We operate under the name "Drilling & Production Co." as a California Corporation founded on November 6, 1936.

Nevertheless, Drilling & Production Co. does not operate in either DOGGR District One and/or Two as cited in your order. The California Division of Oil, Gas and Geothermal Resources database shows us as only operating in District 4.

Furthermore, our office address in Torrance, California is not an oil and gas producing site; thus we would have nothing to report as outlined in the order.

Sincerely,

James C. (Chris) Hall
