Re: CALIFORNIA WATER CODE DIRECTIVE PURSUANT TO SECTION 13267 – ORDER TO SUBMIT INFORMATION – THE DISPOSAL OF WELL DRILLING FLUIDS, WELL COMPLETION FLUIDS, AND PRODUCTION FLUIDS TO LAND FOR OLIVE OIL COMPANY OIL AND GAS OPERATIONS IN LOS ANGELES AND VENTURA COUNTY, CALIFORNIA

Dear Mr. Cwikla,

Thank you for speaking with me by phone on 4/25/2016, at which time I mentioned that we had already responded to the request. Due to the number of regions issuing the requests I mistakenly thought I had responded to the original Water Code Directive pursuant to section 13267 received from Los Angeles Regional Water Quality Control Board.

Cather Herley Oil Company does not own, operate or produce in the Los Angeles or Ventura County regions.

Please note, as instructed on page 3, paragraph 4 of the document known as INVESTIGATIVE ORDER NO. R4-2015-0378 for the Water Code Directive Section 13267 a Technical Report has been previously submitted to the Central Valley Regional Water Quality Control Board, June 12, 2015.

Sincerely,

David M. Herley, Manager
