Attention Ms. Renee Purdy

Dear Ms. Smith:

**SUBMITTAL OF SEMI-ANNUAL DATA (JULY 1 – DECEMBER 31, 2017)  
UPPER SAN GABRIEL RIVER  
COORDINATED INTEGRATED MONITORING PROGRAM**

On behalf of the Upper San Gabriel River Watershed Management Group, the County of Los Angeles, Los Angeles County Flood Control District (District), and the Cities of Baldwin Park, Covina, Glendora, Industry, La Puente, South El Monte, and West Covina (collectively the Group) are submitting the Semi-Annual Data package for the Upper San Gabriel River Coordinated Integrated Monitoring Program. The data package is being submitted in the California Environmental Data Exchange Network (CEDEN) format.

Between the reporting period of July 1 through December 31, 2017, the following monitoring events were conducted:

1. On July 20, 2017, the Group conducted dry weather sampling at USGR\_SJC\_C-1 in San Jose Creek Reach 1, USGR\_WCW\_BP in Walnut Creek Wash, and non-stormwater outfall site USGR\_SJCRK-79a. No flow was observed at USGR\_R4\_RAM in San Gabriel River Reach 4; therefore, no sample was collected.
2. On July 20, 2017, the District attempted to conduct dry weather sampling at Mass Emission Station S14, but no flow was observed; therefore, no sample was collected.
3. During this reporting period, there were no wet weather sampling events.
