Dear Mr. Yingling and Mr. Tillinghast:

Subject: Cleanup and Abatement Order R1-2022-0045 for Eagle Rock, Inc.

File: Trinity County, Eagle Rock, Inc. SMARTS WDID No. 1 53I00476

The North Coast Regional Water Quality Control Board (Regional Water Board) has received your request for an extension to Cleanup and Abatement Order R1-2022-0045 (Order) for Eagle Rock, Inc. The request is to extend the date to submit the Interim Cleanup and Stabilization Plan (ICSP) from October 10 to October 19, 2022. This request for an extension is approved. The new deadline for submittal of the ICSP (Required Actions (1)) is now October 19th, 2022.

Please note that while your deadlines have been extended, you remain responsible for any discharges that occur from the site both during development of the ICSP and upon its approval and subsequent implementation. We encourage you to move with expediency to ensure that no water quality impacts occur. The Regional Water Board reserves the right to take any enforcement action authorized by law.

Additionally, Regional Water Board staff would like to set up a call with you and VESTRA representatives after their review of the site to discuss site conditions and what plans are being formed to address the imminent threat to water quality. We believe this will increase the likelihood of the ICSP being approved in a quick and efficient manner. Please contact Farzad Kasmaei at Farzad.Kasmaei@waterboards.ca.gov or Heaven Moore at Heaven.Moore@waterboards.ca.gov to arrange for a call. If you have any legal questions, please contact Nathan Jacobsen at Nathan.Jacobsen@waterboards.ca.gov.

Sincerely,

Matthias St. John
Executive Officer
