

**Post-Fire Impacts on Drinking Water Utilities
In Person or Webinar
October 12, 2018
9 am to 4 pm**

The U.S. Environmental Protection Agency, Region 9 and California State Water Resources Control Board are partnering to host a webinar to provide information to water systems whose watersheds have been affected by wildfires or could be affected in the future. **This webinar will focus on post-wildfire water quality impacts that may affect water utilities with surface water treatment.**

We have assembled a group of presenters with a wide array of expertise and knowledge to aid water utilities in preparing and coping with treatment challenges they will likely face during the coming wet season. Presentations will include:

- **Overview of watershed impacts**
- **Regional Boards' post 2017 & 2018 wildfire activities**
- **Water Research Foundation projects regarding effects of wildfire impacts**
- **Erosion control practices and modeling watershed impacts**
- **CA water utilities water quality and treatment impacts**
- **Tackling treatment: preparations and treatment optimizations**
