

## Notice of Proposed No Further Action

For

Poli Property  
76381 Covelo Road  
Covelo, CA

Case Number 1TMC504

Mendocino County

**Notice Posting Date: January 4, 2022**

**End of Comment Period: March 7, 2022**

A soil and groundwater investigation was conducted at the above-referenced site and a release of petroleum hydrocarbons was documented. Although some contamination remains in the subsurface beneath the property, this site meets the criteria for closure under Resolution 92-49.

Regional Water Board staff proposes that no further work be required. The purpose of this notice is to inform interested parties, including owners of nearby land, that the case is being considered for closure, and to invite public comment on this proposed decision.

### **Problem Description**

A previous underground storage tank (UST) system, removed in 1997, released gasoline to soil and groundwater at this site. Soil and groundwater have been investigated. Petroleum hydrocarbon impacts were observed in soil beneath the UST during removal activities. Further investigation showed that the area of impact is limited to the area immediately beneath the former UST and dispensers and has not shown signs of contaminant migration in the 25 years since the USTs and dispensers were removed. No water supply wells were impacted by this contamination.

### **Proposed Action**

Case closure is proposed. This site meets the conditions for closure under the State Water Resources Control Board's "[Low-Threat Underground Storage Tank Case Closure Policy](#)."

Unless significant comments are received or new information is presented regarding this site, Regional Water Board staff plans to proceed with the closure process upon conclusion of the comment period. Please contact Kent Huth at (707) 576-2669 or [Kent.Huth@waterboards.ca.gov](mailto:Kent.Huth@waterboards.ca.gov) with any questions or comments. Written comments may also be submitted to:
