In re: State Water Resources Control Board

Regulatory Action:

Title 23, California Code of Regulations

Adopt section: 3909.6

NOTICE OF APPROVAL OF REGULATORY ACTION

Government Code Section 11353

OAL Matter Number: 2018-0124-03S

OAL Matter Type: Regular (S)

On May 12, 2016, the North Coast Regional Water Quality Control Board adopted Resolution No. R1-2016-0017, which establishes a Total Maximum Daily Load and incorporates an action plan to address sediment impairments in the Upper Elk River Watershed. The State Water Resources Control Board approved the amendment of the Basin Plan in Resolution No. 2017-0046 on August 1, 2017.

OAL approves this regulatory action pursuant to section 11353 of the Government Code.

Date: March 8, 2018

Original: Eileen Sobeck, Executive Director Copy: Lance Le Steven J. Escobar Attorney

For: Debra M. Cornez Director

Concise Summary of Regulatory Provisions

Title 23. Waters

Division 4. Regional Water Quality Control Boards

Chapter 1. Water Quality Control Plans, Policies, and Guidelines Article 1. North Coast Region

Section 3909.6. Action Plan for the Upper Elk River Sediment TMDL.

On May 12, 2016, the North Coast Regional Water Quality Control Board (Regional Water Board) adopted Resolution No. R1-2016-0017 to establish a Total Maximum Daily Load (TMDL) and incorporate an action plan to address sediment impairments in the Upper Elk River Watershed. On August 1, 2017, the State Water Resources Control Board approved the amendment under Resolution No. 2017-0046. The TMDL Action Plan identifies a three-prong approach to addressing excessive sedimentation and elevated rates of flooding that constitute nuisance conditions under the Porter Cologne Water Quality Control Act. The three components of the program of implementation include: 1) control of sediment delivery via waste discharge requirements, waivers or other orders; 2) assessment of the sediment remediation and channel restoration options via the Elk River Recovery Assessment (e.g., hydrodynamic and sediment model); and 3) implementation of individual recovery projects through the Elk River Watershed Stewardship Program with support from a Health and Safety Workgroup, Science and Monitoring Workgroup, and Sediment Remediation Workgroup.
