Subject: **Septic Regulations**

Dear Mr. St. John;

I am writing as a summer home owner on the Russian River in Hacienda. Our family has owned this property since the late 1930's. We have huge concerns regarding the River and it's health and well being; as well as that for all the creatures and plants that live in and near its shore. We are requesting that more time be taken before a decision is made on the new septic regulations. There needs to be time to evaluate the impact and for the community to be come aware of theses new requirements. The terms the proposed septic regulations appear to be very strict and expensive. More time for discussion and equitable solutions is required. Thank you for your time and consideration.

Sincerely yours,
Rosemary Benz
