**Subject:** Comment Letter- 2016 Bay Delta Plan Ammendment SED

Dear State Bay Delta Ammendment Plan,

please do not allow any more water to be taken from the San Joaquin River or its tributaries to assist salmon or twin tunnel needs.

it is imperative to allow even greater flow of water to aid farming endeavors and residents of the Central Valley as opposed to aiding salmon not raised in this economy system.

The devastation to farming and tremendous loss of jobs and revenue value as well and the genera impact to rresidents would cause a collapse in our area.

This area is responsible for billions of dollars in again sales throughout the country and the world and our jobs depend on Ag.

Thank you,

Steve Kubeck
