Subject: Increased costs

Hi, I am Mike Pasner owner and operator of Indian Springs Organic Farm for 30 years. I have payed your fees under protest for many years. The burden of enforcing water quality need s to be on the Water quality Control BOD and the other pollution control, government organizations, not innocent Farmers. Any increase in fees is adding insult to injury. Put the burden of enforcement where it belongs, not on the hundreds of farmers obeying the law. Thank you M.P. ISOF
