DIABLO CANYON NUCLEAR POWER PLANT

NOTICE IS HEREBY GIVEN that the State Water Resources Control Board (State Water Board) will receive public comments on the Draft Determination to Approve Mitigation Measures for the Water Quality Control Policy on the Use of Coastal and Estuarine Waters for Power Plant Cooling (Once-Through Cooling): Diablo Canyon Nuclear Power Plant.

BACKGROUND

The State Water Board's Once-Through Cooling Policy requires owners or operators of existing power plants to implement measures to mitigate interim impingement and entrainment impacts resulting from their cooling water intake structures. The interim mitigation period commenced on October 1, 2015, and continues up to and until owners or operators achieve final compliance with the OTC Policy. Section 2.C.3 of the Policy provides information required to demonstrate compliance with the interim mitigation requirements. State Water Board [Resolution No. 2015-0057](#) describes the procedures for calculating the mitigation payment and approving mitigation measures. In accordance with Resolution No. 2015-0057, the State Water Board has prepared a draft determination approving interim mitigation measures for Diablo Canyon Nuclear Power Plant.
