SIUR filed with Cannabis SIUR with same water right ^[8]	§1068(h)	\$375
Cannabis SIUR	§1068(e)	\$750
Cannabis SIUR with Onstream Reservoir	§1068(f)	\$4,750
Statement of Diversion and Use for Cannabis Cultivation Filing Fee (including supplemental Statements)	§1070.5	\$200
Proof of Claim under Water Code §2575 et seq.	§1069	\$1,000 for one or more proof of claims that total less than 1,000 acre-feet per annum (AFA) or 1,000 acres of riparian land, or \$10,000 if equal to or greater than 1,000 AFA or 1,000 acres of riparian land.
Groundwater Recordation under Water Code §4999 et seq.	§1070	\$50

^[1] Total Acre-Foot per Annum will be considered equal to the diversion rate multiplied by the length of the direct diversion season, and the total collection amount for storage, unless otherwise specified. If the Permit, License or Application includes both direct diversion and storage, the two amounts will be additive, unless a total annual amount is specified. For water rights that are primarily for a hydropower purpose, the fee shall be the greater of either 30 percent of the applicable fee or \$100 for facilities licensed by the Federal Energy Regulatory Commission and the greater of either 50 percent of the applicable fee or \$100 for all other hydropower facilities.

^[2] Pursuant to §1066(a)(3), the Annual Fee shall be 75 percent of the standard Permit and License Annual Fee based on the face value of the Permit or License, or a minimum fee of \$300 plus \$0.109 for every acre-foot in excess of 10 acre-feet actually diverted, whichever is greater, for Permits or Licenses issued on or after January 1, 2020 that meet the following criteria: (a) The Permit or License meets the criteria for the reduced application fee under footnote [8]; (b) The right holder has installed and is maintaining a stream gage with telemetry capabilities to provide publicly available real-time streamflow conditions via the California Data Exchange Center Website, and when available, a

future website developed by the board; (c) The right holder timely submits the progress report by permittee required by section 925 or the report of licensee required by section 929.

The Annual Fee available pursuant to §1066(a)(3) shall be calculated based on timely reported diversions for the preceding reporting year, provided that the Annual Fee for the year in which a permit is issued shall be 75 percent of the standard Permit and License Annual Fee calculated based on the face value of the Permit or License.

^[3] Annual Fee is inclusive of requests for minor change of a permit or license, per Water Code section 1700.6.

^[4] Due under specific circumstances such as: project is initiated prior to the State Water Board issuing a Permit authorizing the diversion; applicant requests a delay in processing application; applicant is lead agency under California Environmental Quality Act (CEQA) and has not adopted or certified a final environmental document for the project within two years after the water right application is noticed; applicant fails to provide requested supplemental information; or Division has determined that a Permit may be issued but the applicant has failed to pay filing fees.

^[5] Annual Fee is inclusive of requests for minor change of an application, per Water Code section 1700.4.

^[6] Due under specific circumstances such as: petitioner diverts water prior to the State Water Board approving the requested change; petitioner requests a delay in processing petition; petitioner is lead agency under CEQA and has not adopted or certified a final environmental document for the project within two years after the petition is noticed; or petitioner fails to provide requested supplemental information.

Pursuant to §1065(b), this fee may be reduced to \$500 for any given year where the Division finds both of the following: (1) The petitioner has timely provided all information required to continue processing the petition; and (2) The Division has been unable to expend significant resources towards completion of processing the petition.

^[7] For Small Domestic use registrations held by a low-income resident for purposes of providing water for human consumption, cooking and sanitary purposes, the Annual Fee shall be reduced by 20%. Stockpond maximum Annual Fee for a single primary owner holding 5 or more registrations at \$375 in FY 2019-20; \$500 in FY 2020-21 pursuant to §1068(b)(8). The portion of the application fee based on the amount diverted shall be due within 30 days of permit expiration and shall be accompanied by a report of the amount actually diverted. Fee includes a non-refundable initial review fee equal to \$500 plus 10% of the applicable application filing fee for an initial review. No portion of the application fee shall be refundable once the application is either (1) accepted for filing, or (2) the board communicates to the applicant that the applicant made a bona fide attempt to conform to the rules and regulations, but that the application is defective in some manner pursuant to §1062(c).

^[8] An SIUR filed for non-cannabis irrigation use receives a 50% discount for both the initial filing fee and the Annual Fee if the SIUR is filed with a Cannabis SIUR for the same diversion.

^[9] Fee includes a non-refundable initial review fee equal to \$500 plus 10% of the applicable application filing fee for an initial review. No portion of the application fee shall be refundable once the application is either (1) accepted for filing, or (2) the board communicates to the applicant that the applicant made a bona fide attempt to conform to the rules and regulations, but that the application is defective in some manner pursuant to §1062(c).

^[10] The fee for an application for an appropriative right to divert water to underground storage shall be 75 percent of the fee calculated for the standard Application Fee provided the following criteria are met: (a) The application must be for diversion of water only between December 1 and March 31; (b) The application must be primarily for diversion to underground storage in a groundwater basin identified in Bulletin 118; (c) The applicant must be a Groundwater Sustainability Agency or local agency as defined in Water Code section 10721; (d) The applicant has completed all environmental documents required under the California Environmental Quality Act (CEQA); (e) The application proposes diversions only when either the streamflow at the point(s) of diversion is above the 90th percentile calculated from gage data during the period-of-record and the diversion rate is limited to 20 percent of

the total streamflow, or when flows in the source waterbody at or near the point of diversion exceed thresholds that trigger flood control actions necessary to mitigate threats to human health and safety according to established written flood management protocols adopted by a flood control agency. See §1062(a)(1)(F).

^[11] Filing fee is inclusive of a non-refundable \$250 fee for an initial review. A petition for a temporary urgency change filed under Water Code section 1443.1 that is solely for purposes of diverting water to underground storage for later beneficial use shall be accompanied by, in addition to the fee required by subdivision (a) of this section, a fee for the California Department of Fish and Wildlife review of the petition as follows: (i) For a petition to divert less than 10,000 acre-feet of water per year, \$3,000 plus \$0.10 per acre-foot of water applied for; or (ii) For a petition to divert 10,000 acre-feet of water per year or more, \$5,000 plus \$0.10 per acre-foot of water applied for.

^[12] Five-year temporary change petitions are limited to projects seeking to amend a permit or license to add underground storage and must meet all eligibility requirements contained in Water Code sections 1443.1 and 1443.2.
