Proof of Claim under Water Code §2575 et seq.	$500
Groundwater Recordation under Water Code §4999 et seq.	$50

[1] Total Acre-Foot per Annum will be considered equal to the diversion rate multiplied by the length of the direct

[2] Due under specific circumstances such as: project is initiated prior to the State Water Board issuing a permit authorizing the diversion; applicant requests a delay in processing application; applicant is lead agency under California Environmental Quality Act (CEQA) and has not adopted or certified a final environmental document for the project within two years after the water right application is noticed; applicant fails to provide requested supplemental information; or Division has determined that a permit may be issued but the applicant has failed to pay filing fees.

[3] Due under specific circumstances such as: petitioner diverts water prior to the State Water Board approving the requested change; petitioner requests a delay in processing petition; petitioner is lead agency under CEQA and has not adopted or certified a final environmental document for the project within two years after the petition is noticed; or petitioner fails to provide requested supplemental information.

[4] Total Acre-Foot per Annum will be considered equal to the diversion rate multiplied by the length of the direct diversion season, and the total collection amount for storage, unless otherwise specified. If the application includes both direct diversion and storage, the two amounts will be additive, unless a total annual amount is specified. *

[5]This filing fee is inclusive of a non-refundable $250 fee for an initial review.

* (a) Except as provided in subdivision (b), a fee imposed under this chapter for an activity involving this chapter for an activity involving the diversion or use of water for the purpose of diverting water for hydropower generation shall be calculated as follows:

(1) At a facility licensed, or subject to licensing by the Federal Energy Regulatory Commision, the fee shall by the greater of either 30 percent of the fee calculated in accordance with the other applicable provisions of this chapter or $100.

(2) At all other hydropower generation facilities, the fee shall be the greater of either 50 percent of the fee calculated in accordance with the other applicable provisions of this chapter or $100.

[6]Small Domestic discount for qualified low-income residents: 20 percent off the proposed $100 fee phased-in the following manner: $40 fee (FY 2018-19); $60 (FY 2019-20); $80 (FY 2020-21) and every year thereafter. Stockpond maximum fee for a single primary owner holding 5 or more registrations at $250 (FY 2018-19), $375 (FY 2019-20) and $500 (FY 2020-21).
