

# UNCONTESTED

STATE OF CALIFORNIA  
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT (Vincent Christian)  
MEETING DATE: September 11, 2013

ITEM: **6A**

SUBJECT: **Bottling Group, LLC, Bottling Group Plant at 29000 Hesperian Boulevard, Hayward, Alameda County** – Reissuance of NPDES Permit

CHRONOLOGY: July 2008 – NPDES Permit Reissued

DISCUSSION: This Revised Tentative Order (Appendix A) would reissue the NPDES permit for Bottling Group, LLC, which owns and operates a plant producing up to 900,000 gallons per day of soft drinks and bottled water. Bottling Group, LLC, discharges a reverse osmosis concentrate stream to the Alameda County Flood Control and Water Conservation District Flood Channel, which is the tidally-influenced, downstream section of Old Alameda Creek. Old Alameda Creek flows about one mile to Lower San Francisco Bay.

Bottling Group, LLC, submitted comments (Appendix B) on a tentative order and identified some typographical errors. The Revised Tentative Order corrects these errors and includes minor staff-initiated changes as shown in our Response to Comments (Appendix C). We expect this item to remain uncontested.
