<sup>a</sup>These allocations are applicable year-round. Wasteload allocations apply to any sources (existing or future) subject to regulation

by a NPDES permit. <sup>b</sup>The allocations for total coliform and fecal coliform shall sunset and shall no longer be effective upon the replacement of the total and fecal coliform water quality objectives in the Basin Plan with *E.coli*-based water quality objectives for contact recreation. <sup>c</sup>Based on a minimum of five consecutive samples collected at approximately equal intervals over a 30-day period.
