

STATE OF CALIFORNIA
REGIONAL WATER QUALITY CONTROL BOARD
CENTRAL COAST REGION

SUPPLEMENTAL SHEET FOR REGULAR MEETING OF MAY 9, 2008

Prepared on April 29, 2008

ITEM NUMBER: 22

SUBJECT: Toxicity Problems on the Central Coast: Agricultural and Urban Solutions

DISCUSSION:

CCWQP Newsletter. Central Coast Water Quality Preservation, Inc. (CCWQP), the entity that conducts the Cooperative Monitoring Program, provides its member growers with regular updates on the monitoring program and ag waiver issues through newsletters. CCWQP requested that staff provide the Board with copies of its most recent newsletter (Attachment 1).

Reference Error Correction. Attachment 1 of the staff report (References) contained an incorrect date for the CCWQP draft phase 1 follow-up report, which should be 2008, not 1998.
