TERMINATION OF COVERAGE UNDER GENERAL NPDES PERMIT AND WASTE DISCHARGE REQUIREMENTS, LOS ANGELES COUNTY METROPOLITAN TRANSPORTATION AUTHORITY, CRENSHAW/LAX TRANSIT CORRIDOR PROJECT (NPDES No. CAG994004, CI-10083)

Dear Mr. Gallagher:

In our letter dated August 27, 2014, we informed you that the subject discharge is regulated under Order No. R4-2013-0095, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 6, 2013.

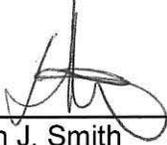

Your letter of February 15, 2018, to Regional Water Board staff requested termination of your coverage under the general NPDES permit, Order No. R4-2013-0095. The letter indicated the dewatering general permit is no longer necessary for the construction project. In addition, MTA has obtained a special sanitary sewer permit to discharge any future groundwater dewatering for the project to the sanitary sewer system.

On June 14, 2018, Regional Water Board staff inspected the site and found that dewatering discharge pipelines were disconnected and capped. In addition, the MTA has pipeline connection to the sanitary sewer at the site. Since there is no discharge of groundwater from the project, coverage under Board Order R4-2013-0095, General NPDES Permit No. CAG994004, CI-10083, is hereby terminated, except for enforcement purposes.

Please note that if future discharges of groundwater to surface water or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate Waste Discharge Requirements.

If you have any questions, please contact Carlos D. Santos at 213-620-2093, or email him at csantos@waterboards.ca.gov.

Sincerely,

Deborah J. Smith
Executive Officer
