Ms. Roxanne Hughes, P.E.
City Engineer, City of Fillmore
250 Central Ave.
Fillmore, CA 93015

TERMINATION OF COVERAGE UNDER GENERAL NPDES AND WASTE DISCHARGE REQUIREMENTS—CITY OF FILLMORE GROUNDWATER WELLS No. 9 AT 990 THIRD AVE., FILLMORE, (NPDES NO. CAG994005, CI—10111)

Dear Ms. Hughes:

The subject discharges are regulated under Order R4-2003-0108, *General National Pollutant Discharge Elimination System (NPDES) and Waste Discharge Requirements for Discharges of Groundwater from Potable Water Supply Wells to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003.

We have reviewed the letter from Mr. Timothy Thompson, GSI Water Solutions, Inc. dated March 24, 2017, which requested termination of your coverage under the General NPDES Permit. The letter indicated that you have developed and subsequently capped the groundwater well No. 9 in November 2010. On August 15, 2017, assistant City Engineer, Joe Bellomo informed Regional Board staff that the Well No. 9 was never put to use and that the General NPDES permit is no longer needed. Since there is no discharge of groundwater from Well No. 9 coverage under Board Order R4-2003-0108, General NPDES Permit No. CAG994005, CI-10111 for the well is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Carlos D. Santos at (213) 620-2093.

Sincerely,

Samuel Unger, P.E.
Executive Officer
