TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS- ACE FAIRWAY DRIVE GRADE SEPARATION PROJECT, 711 FAIRWAY DR., INDUSTRY (NPDES No. CAG994004, CI-10139)

Dear Mr. Tsang:

In our letter dated May 4, 2015, we informed you that the subject discharge is regulated under Order No. R4-2013-0095, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 6, 2013.

Your e-mail on November 1, 2016, to Regional Water Board staff requested termination of your coverage under the general NPDES permit, Order No. R4-2013-0095. The e-mail indicated the general permit is no longer needed as you do not anticipate the need to keep the NPDES dewatering permit because there will be no discharge of groundwater for the next eight to twelve months.

On October 27, 2016, Regional Water Board staff inspected the project site and verified that there is no discharge of groundwater from the project site to the storm drain. Since there is no discharge of groundwater from the site, coverage under Board Order R4-2013-0095, General NPDES Permit No. CAG994004, CI-10139 for the facility is hereby terminated, except for enforcement purposes.

Please note that if future discharges of groundwater to surface water or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate Waste Discharge Requirements.

If you have any questions, please contact Carlos D. Santos at 213-620-2093, or email him at csantos@waterboards.ca.gov.

Sincerely,

Samuel Unger, P.E.
Executive Officer
