**TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS — HONEYWELL INTERNATIONAL, INC., 9851 SOUTH SEPULVEDA BL., LOS ANGELES (NPDES NO. CAG994004, CI-10148)**

Dear Mr. Wu,

In our letter dated May 4, 2015, we informed you that the subject discharge is regulated under Order No. R4-2013-0095, *General National Pollutant Discharge Elimination System (NPDES) and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 6, 2013.

We have reviewed your May 13, 2016, letter which requested termination of your coverage under the General NPDES Permit. The letter indicated that aquifer testing and groundwater treatment pilot test project has been completed and the permit is no longer needed.

On May 24, 2016, Board staff inspected the project site and verified that there is no discharge of groundwater from the project site to the storm drain. Since there is no discharge of groundwater from the site, coverage under Board Order R4-2013-0095, General NPDES Permit No. CAG994004, CI-10184 for the facility is hereby terminated, except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Carlos D. Santos at (213) 620-2093, or e-mail at [csantos@waterboards.ca.gov](mailto:csantos@waterboards.ca.gov).

Sincerely,

  
Samuel Unger, P.E.
