

## Los Angeles Regional Water Quality Control Board

November 2, 2015

Mr. Nick Lisica  
Crimson Pipeline L.P.  
3780 Kilroy Airport Way, Suite 400  
Long Beach, CA 90806

**TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS- CRIMSON PIPELINE L.P., NORWALK PUMP STATION, 11865 FOSTER ROAD, NORWALK, CALIFORNIA (NPDES NO. CAG994004, CI-10155)**

Dear Mr. Lisica:

In our letter dated June 15, 2015, we informed you that the subject discharge is regulated under Order No. R4-2013-0095, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, (General NPDES Permit No. CAG994004), which also serves as your NPDES permit.

On October 5, 2015, Envent Corporation informed the Regional Board that hydrostatic testing of the pipeline has been completed and the subject NPDES permit is no longer needed. Since the NPDES permit is no longer necessary, Envent Corporation requested termination of coverage under the above-referenced General NPDES permit.

On October 30, 2015, Regional Board staff inspected the facility and verified that there is no discharge of hydrostatic test water from the site to surface water. Therefore, coverage under Board Order R4-2013-0095 for the subject site is hereby terminated, except for enforcement purposes

Please note that if future discharges of hydrostatic test water to surface water or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate Waste Discharge Requirements.

If you have any questions, please contact Alex Carlos at 213-576-6726.

Sincerely,

  
Samuel Unger, P.E.  
Executive Officer
