Calabasas CA 91302

**TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS—CALIFORNIA STATE PARKS, ANGELES DISTRICT, ARROYO SEQUIT STEELHEAD AND STREAM RESTORATION PROJECT, LEO CARILLO STATE PARK, 3500 PACIFIC COAST HIGHWAY, CALIFORNIA (NO. CAG994004, CI-10248)**

Dear Ms. King:

The subject discharges are regulated under Order No. R4-2013-0095, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 6, 2013.

We have reviewed your November 15, 2016, letter which requested termination of your coverage under the General NPDES Permit. The letter indicated that you have completed the stream restoration project and that the General NPDES permit is no longer needed. On February 16, 2017, Board staff inspected the facility and verified that there is no discharge of groundwater from the project site to the storm drain. Since there is no discharge of groundwater from the project site, coverage under Board Order R4-2013-0095, General NPDES Permit No. CAG994004, CI-10248 for the facility is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

Ms. Jamie King, Environmental Scientist  
Malibu Creek State Park
