Sacramento, CA 95826

Dear Ms. Bucklin:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS—DEPARTMENT OF TOXIC SUBSTANCES CONTROL, WHITTIER NARROWS OPERABLE UNIT, 331 N. DURFEE AVENUE, S. EL MONTE, CALIFORNIA (NPDES NO. CAG914001, CI-10277)

The subject discharge is regulated under Order No. R4-2013-0043, *Waste Discharge Requirements for Discharges Treated Groundwater from Investigation and/or Cleanup of Volatile Organic Compounds Contaminated-Sites to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on April 7, 2013.

We have reviewed your email dated July 6, 2018, requesting termination of your coverage under the General Permit. The email indicated that you were unable to gain access from the City of Whittier to start discharging under the general NPDES permit coverage and the subject NPDES permit is no longer needed.

Since there is no discharge of groundwater from the facility, coverage under Board Order R4-2013-0043, General NPDES Permit No. CAG914001 for the facility is hereby terminated, except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Gensen Kai at (213) 576-6651.

Sincerely,

Deborah J. Smith
Executive Officer
