**TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE REQUIREMENTS
– THE FORMER EXXON MOBIL GASOLINE STATION (#11-GQG FACILITY), 15281 SUNSET
BOULEVARD, LOS ANGELES, CA 90036, (FILE NO. 16-116, ORDER NO. R4-2014-0187,
SERIES NO. 086, CI-10279, GLOBAL ID. WDR100039531)**

Dear Mr. Hayden:

On November 11, 2016, this Regional Water Quality Control Board (Regional Board) informed you that the subject discharge is regulated under Regional Board Order No. R4-2014-0187, which specifies your Waste Discharge Requirements (WDR).

On March 7, 2017, sodium persulfate solution injection for the insitu remediation of volatile organic compounds in groundwater was completed. In a letter dated August 15, 2018, CAH Acquisition Co. V, LLC requested termination of WDR coverage under Regional Board Order No. R4-2014-0187 because CAH Acquisition CO. V, LLC does not plan to resume sodium persulfate solution injection.

Regional Board staff have reviewed monitoring reports submitted in compliance with Monitoring and Reporting Program (MRP) No. CI-10279 for the site, and CAH Acquisition CO. V, LLC's March 12, 2018, response to the Regional Board's January 11, 2018, Notice of Violation (NOV). All reports required under the MRP have been submitted and meet the requirements of the MRP. The response to the NOV adequately addresses the items noted in the NOV.

The coverage under Regional Board Order No. R4-2014-0187 for the subject site is no longer needed and hereby terminated except for enforcement purposes to address non-compliance, if any, during the term of permit coverage.

If you have any questions, please contact the Project Manager, Mr. Peter Raftery at (213) 620-6156 (peter.raftery@waterboards.ca.gov), or the Chief of Groundwater Permitting Unit, Dr. Eric Wu at (213) 576-6683 (eric.wu@waterboards.ca.gov).

Sincerely,

for Deborah J. Smith
Executive Officer
