Los Angeles Regional Water Quality Control Board

July 6, 2018

Mr. Charles Valdez  
Mole-Richardson Co., Ltd.  
12154 Montague Street,  
Pacoima, CA 91331

**TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—MOLE-RICHARDSON CO., LTD.—953 NORTH SYCAMORE PROJECT, 953 NORTH SYCAMORE AVENUE, HOLLYWOOD, CALIFORNIA (NPDES NO. CAG994004, CI—10281)**

Dear Mr. Valdez:

In our letter dated October 31, 2016, we informed you that the subject discharge is regulated under Order No. Order No. R4-2013-0095, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Groundwater Discharges from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 6, 2013.

We have reviewed your May 7, 2018, letter which requested termination of your coverage under the General NPDES Permit. The letter indicated that the construction dewatering project was completed on January 23, 2018, and that the subject NPDES permit is no longer needed.

On June 29, 2018, Board staff inspected the project site and verified that there is no discharge of groundwater from the project site to the storm drain. Since there is no discharge of groundwater from the project site, coverage under Board Order No. R4-2013-0095, General NPDES Permit No. CAG994004, CI-10281 for the facility is hereby terminated except for enforcement purposes.

Please note that if future discharges of wastewater to surface water or land becomes necessary, you must file a Report of Waste Discharge with this office and obtain appropriate Waste Discharge Requirements (WDRs) prior to discharging any groundwater from the site to surface waters or land.

If you have any questions, please contact Vilma Correa at (213) 576-6794.

Sincerely,

---

Deborah J. Smith  
Executive Officer
