Malibu, CA 90265-4861

CERTIFIED MAIL
RETURN RECEIPT REQUESTED
CLAIM NO. 7016 0750 0000 3359 7049

TERMINATION OF GENERAL WASTE DISCHARGE REQUIREMENTS FOR AQUIFER STORAGE AND RECOVERY (ASR) PROJECTS THAT INJECT DRINKING WATER INTO GROUNDWATER FOR CITY OF MALIBU, MALIBU, CA (FILE NO. 17-047, ORDER NO. 2012-0010-DWQ, SERIES NO. 004, CI-10322, GEOTRACKER GLOBAL ID NO. 100039681)

Dear Mr. Brager:

Our letter dated May 1, 2017, informed you that the City of Malibu's (City's) ASR Pilot Injection Testing Project (ASR Project) is regulated under Order No. 2012-0010-DWQ, which specifies your Waste Discharge Requirements.

RMC Water and Environment on behalf of the City conducted a short-term testing, which injected potable water into the underlying Malibu Groundwater Basin at three wells, named IW01, IW02, and IW03, along the Malibu Road within the City between June 19, 2017 and July 7, 2017. Total of approximately 1,189,00 gallons of potable water were injected into aquifer to evaluate the aquifer capacity and response for tertiary-treated wastewater injection. The City has completed the aquifer testing and does not have any plan for further testing. On September 28, 2017, Ms. Patty Anaya with Cascade Drilling Technical Services on behalf of the City submitted a termination request letter for the ASR Project.

Since the ASR Project had been completed and no more injection is anticipated, the coverage under Order No. 2012-0010-DWQ, File No. 17-047, and CI-10322 is no longer needed, and therefore is hereby terminated.

If you have any questions concerning this letter, please contact Dr. Don Tsai at (213) 620-2264 (don.tsai@waterboards.ca.gov) or the Chief of Groundwater Permitting Unit, Dr. Eric Wu at (213) 576-6683 (eric.wu@waterboards.ca.gov).

Sincerely,

Samuel Unger, P.E.
Executive Officer
