## Los Angeles Regional Water Quality Control Board

November 12, 2019

Mr. Matthew Lasecki  
California American Water  
8657 Grand Avenue  
Rosemead, CA 91770

**TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS—CALIFORNIA AMERICAN WATER, ARLINGTON WELL, 5109 ARLINGTON AVENUE, LOS ANGELES, CALIFORNIA (NPDES NO. CAG914001, CI-10326)**

Dear Mr. Lasecki:

The subject discharge is regulated under Order No. R4-2013-0043, *Waste Discharge Requirements for Discharges Treated Groundwater From Investigation and/or Cleanup of Volatile Organic Compounds Contaminated-Sites to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Regional Water Board on April 7, 2013.

We have received your email of October 31, 2019, requesting termination of your coverage CI-10326 under the Board Order R4-2013-0043. The email indicated that the treated wastewater discharge from Arlington Well at the subject facility is now regulated under Order R4-2018-0087, CI-10445 issued on December 19, 2018, and that the subject NPDES permit enrollment under CI-10326 is no longer needed.

We have reviewed and concur with your request. Therefore, coverage under Board Order R4-2013-0043, General NPDES permit enrollment CI-10326 for the facility is hereby terminated, except for enforcement purposes.

If you have any questions, please contact Gensen Kai at (213) 576-6651.

Sincerely,

A handwritten signature in black ink that reads "Renee Purdy".

Renee Purdy  
Executive Officer
