

Los Angeles Regional Water Quality Control Board

June 27, 2019

Mr. Daniel Rocolo, Area Manager
Kiewit Power Constructors Company
9401 Renner Boulevard,
Lenexa, KS 66219

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—KIEWIT POWER CONSTRUCTORS COMPANY—AES ALAMITOS ENERGY CENTER HYDROSTATIC TEST PROJECT, 690 NORTH STUDEBAKER ROAD, LONG BEACH, CALIFORNIA (NPDES NO. CAG674001, CI—10379)

Dear Mr. Rocolo:

In our letter dated January 8, 2018, we informed you that the subject discharge is regulated under Order No. R4-2009-0068, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Discharges of Low Threat Hydrostatic Test Water to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 4, 2009.

We have reviewed your June 24, 2019, letter which requested termination of your coverage under the General NPDES Permit. The letter indicated that the hydrostatic test project was completed in January 2019 and that the subject NPDES permit is no longer needed.

On June 24, 2019, Board staff inspected the project site and verified that there is no discharge of hydrostatic test water from the facility into the Los Cerritos Channel. Since there is no discharge of wastewater from the project site, coverage under Board Order No. R4-2009-0068, General NPDES Permit No. CAG674001, CI-10379 for the facility is hereby terminated except for enforcement purposes.

Please note that if future discharges of wastewater to surface water or land becomes necessary, you must file a Report of Waste Discharge with this office and obtain appropriate Waste Discharge Requirements (WDRs) prior to discharging any groundwater from the site to surface waters or land.

If you have any questions, please contact Vilma Correa at (213) 576-6794.

Sincerely,

Renee Purdy
Executive Officer
