RETURNED RECEIPT REQUESTED
No. 7001 2510 0003 6055 7057

Dear Mr. Yesavage:

WASTE DISCHARGE REQUIREMENTS – CHEVRON PRODUCTS COMPANY (EL SEGUNDO REFINERY), EL SEGUNDO, CA. (NPDES NO. CA0000337, CI-1603)

Our letter dated November 1, 2006, transmitted revised tentative order for renewal of your permit to discharge wastes under the National Pollutant Discharge Elimination System (NPDES).

Pursuant to Division 7 of the California Water Code, this Regional Board at a public hearing held on December 14, 2006, reviewed the revised tentative requirements, considered all factors in the case, and adopted Order No. R4-2006-0089 (copy attached) relative to this waste discharge. Order No. R4-2006-0089 serves as your permit under the NPDES and expires on November 10, 2011. Section 13376 of the California Water Code requires that an application for a new permit must be filed at least 180 days before the expiration date.

You are required to implement the *Monitoring and Reporting Program* (MRP) on the effective date of Order No. R4-2006-0089. Your first monitoring report for the February reporting period is due by April 1, 2007. All monitoring reports should be sent to the Regional Board, Attn: Information Technology Unit.

When submitting monitoring, technical reports, or any correspondence regarding the discharge under Order No. R4-2006-0089 to the Regional Board, please include a reference to *Compliance File No. CI 1603 and NPDES No. CA0000337*, which will assure that the reports are directed to the appropriate file and staff. Please do not combine your discharge monitoring reports with other reports. Please submit each type of report as a separate document.

We are sending the final copy of the permit only to the Discharger. For those on the mailing list who would like access to a copy of the final permit, please go to the Regional Board's website <http://www.waterboards.ca.gov/losangeles/>.

California Environmental Protection Agency
