Mr. Devin Beavers
Vulcan Materials Company
500 North Brand Boulevard
Los Angeles, CA 91203

TERMINATION OF WASTE DISCHARGE REQUIREMENTS FOR VULCAN MATERIALS COMPANY (CALMAT COMPANY), SATICOY FACILITY, 6029 VINEYARD AVENUE, OXNARD, CALIFORNIA (ORDER NO. 88-130, FILE NO. 66-049, CI No. 5135, GLOBAL ID WDR100000183)

Dear Mr. Beavers:

Our letter of January 22, 2016, transmitted a tentative order to terminate Waste Discharge Requirements Order No. 88-130 (WDRs) for discharging up to 1 million gallons per day of wastes consisting of wastewater from sand and gravel wash-down, wastewater draining from a truck wet-down facility, and runoff from dust control spraying into two percolation ponds at Saticoy Facility located at 6029 Vineyard Avenue, Oxnard, California.

Pursuant to Division 7 of the California Water Code, this Regional Board at a public meeting held on March 10, 2016, reviewed the tentative order, considered all factors in the case, and adopted Order No. R4-2016-0120 (a copy is enclosed) relative to the termination of the WDRs. No written comments were received related to the termination of the WDR.

If you have any questions, please contact the Project Manager, Ms. Mercedes Merino at (213) 620-6156 (Mercedes.Merino@waterboards.ca.gov), or the Chief of Groundwater Permitting Unit, Dr. Eric Wu at (213) 576-6683 (Eric.Wu@waterboards.ca.gov).

Sincerely,

Eric Wu, Ph.D., P.E.
Chief of Groundwater Permitting Unit

Enclosure: Order No. R4-2016-0120

ORDER NO. R4-2016-0120

**TERMINATION OF WASTE DISCHARGE REQUIREMENTS
FOR DISCHARGES TO LAND/GROUNDWATER
(Vulcan Materials Company – Saticoy Facility)
File No. 66-049**

The California Regional Water Quality Control Board, Los Angeles Region (Regional Board) finds:

1. On November 28, 1988, this Regional Board adopted Waste Discharge Requirements Order No. 88-130 (WDRs) and a Monitoring and Reporting Program (MRP), CI No. 5135 for Vulcan Materials Company (dba CalMat Company, Discharger) to discharge up to 1 million gallons per day of wastes consisting of wastewater from sand and gravel wash-down, wastewater draining from a truck wet-down facility, and runoff from dust control spraying into two percolation ponds at its Facility located at 6029 Vineyard Avenue, Oxnard, California.
2. From 1966 to 2005, the Discharger pumped water from on-site wells to wash sand and gravel mined on-site. Effluent from this process was subsequently discharged into a settling basin. Since June 2005, the rock plant is no longer present and discharges to the settling basin no longer occur.
3. The Discharger has been in substantial compliance with the MRP during the term of the WDRs, except for late report submittals.
4. Because the rock plant operations has ceased, the Regional Board finds that WDRs Order No. 88-130 is no longer necessary and shall be terminated, except for purposes of enforcement.
5. The termination of WDRs Order No. 88-130 is exempt from the California Environmental Quality Act because the termination of WDRs and the discharge authorized by the WDRs does not have the potential for causing a significant impact on the environment. See Title 14, Cal. Code Regs. § 15061(b)(3).

The Regional Board has notified the Discharger and interested agencies and persons of its intent to consider termination of WDRs Order No. 88-130, and has provided them with an opportunity to submit comments. The Regional Board, in a public hearing, heard and considered all comments and testimony pertinent to the Order.

IT IS HEREBY ORDERED that Order No. 88-130 is terminated, except for enforcement purposes.

The Executive Officer of this Regional Board is authorized, and is hereby directed, to certify and submit copies of this Order to the Discharger, and to such individuals and governmental agencies that request it.

March 10, 2016

Vulcan Materials Company
Saticoy Facility
Order No. R4-2016-0120

I, Samuel Unger, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Los Angeles Region on March 10, 2016.

Samuel Unger, P.E.
Executive Officer
