CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD, LOS ANGELES REGION

ORDER NO. R4-2003-0159

RESCINDING WASTE DISCHARGE REQUIREMENTS
FOR DISCHARGES TO LAND/GROUNDWATER

1. This Regional Board (Board) adopted Waste Discharge Requirements (WDRs), Order No. 89-041 for Thrifty Oil Company, Station # 211 (Discharger) to discharge treated groundwater to land by infiltration on April 24, 1989.
2. On July 15, 2003, the Ventura County Environmental Health Department granted the Discharger's request to dismantle the groundwater treatment system because the concentrations of petroleum hydrocarbons in groundwater were very low and the groundwater treatment system was no longer efficient.
3. On October 8, 2003, the Discharger requested rescission of Order No. 89-041. The Discharger stated that the discharge had ceased in November of 2002.
4. Regional Board staff has verified, by inspection, that this facility is no longer discharging treated groundwater to land.
5. The Board finds that the requirements of Order No. 89-041 are no longer applicable and should be rescinded.
6. The Board has transmitted copies of this tentative Order to the Discharger and to interested agencies and persons, and has notified them of its intent to rescind requirements at a public meeting to be held on December 4, 2003.
7. At that public meeting, the Board gave the opportunity for a hearing and considered comments and correspondence pertaining to this matter.

IT IS HEREBY ORDERED that Waste Discharge Requirements, Order No. 89-041 be rescinded.

The Executive Officer of this Regional Board, is authorized, and he is hereby directed, to certify and submit copies of this Order to the dischargers, and to such individuals and governmental agencies as may have need therefor, or may request same.

I, Dennis A. Dickerson, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Los Angeles Region on December 4, 2003.
