TERMINATION OF WASTE DISCHARGE REQUIREMENTS FOR CROWN VALLEY BUILDING SUPPLY, WATT ENTERPRISES LLP, 3536 SIERRA HIGHWAY, ACTON, CALIFORNIA (FILE NO. 91-033, ORDER NO. 91-097, CI NO. 7087, GLOBAL ID WDR100001464)

Dear Mr. Watt:

Our letter of October 24, 2016, transmitted a tentative order to terminate Waste Discharge Requirements (WDRs) for the discharge from the Crown Valley Building Supply located at 3536 Sierra Highway, Acton, California.

Pursuant to Division 7 of the California Water Code, this Regional Board at a public meeting held on December 8, 2016, reviewed the tentative order, considered all factors in the case, and adopted Order No. R4-2016-0366 (a copy is enclosed) relative to the termination of the WDRs. No written comments were received related to the termination of the WDRs.

If you have any questions, please contact the Project Manager, Dr. Don Tsai at (213) 620-2264 (Don.Tsai@waterboards.ca.gov), or the Chief of the Groundwater Permitting Unit, Dr. Eric Wu at (213) 576-6683 (Eric.Wu@waterboards.ca.gov).

Sincerely,

Eric Wu, Ph.D., P.E.
Chief of Groundwater Permitting Unit

ORDER NO. R4-2016-0366 TERMINATING WASTE DISCHARGE REQUIREMENTS ORDER NO. 91-097 (CROWN VALLEY BUILDING SUPPLY)

The California Regional Water Quality Control Board, Los Angeles Region (Regional Board) finds:

1. On September 16, 1991, the Regional Board adopted Waste Discharge Requirements (WDRs) Order No. 91-097 and Monitoring and Reporting Program (MRP) CI No. 7087 to regulate the domestic wastewater discharged from Crown Valley Building Supply (Former Acton Hardware, thereafter referred as Facility) to an Onsite Wastewater Treatment System (OWTS), including a septic tank and a leach field. The Facility is located at 3536 Sierra Highway, Acton, CA (Site). The Board Order Transfer Request Form submitted on March 31, 2016 showed that the Facility ownership transfer to Mr. Brady B. Watt (the current Discharger) on May 23, 2012.
2. The Discharger is authorized to discharge up to 750 gallons per day of domestic wastewater to a septic tank and thereafter to a leach field system.
3. On August 5, 2015, the Discharger requested to terminate the coverage under Order No. 91-097, because there is no water service to the Site and no wastewater discharge of any kind.
4. On April 13, 2016, Regional Board staff conducted a site inspection to verify the status of wastewater discharge based on the termination request. The inspection confirmed that there is no operation on the Site and no power connected to the Site. Because the discharge of wastewater was ceased at the project Site, WDRs Order No. 91-097 is no longer needed and shall be terminated, except for purposes of enforcement.
5. The termination of WDRs Order No. 91-097 is exempt from the California Environmental Quality Act because the termination of WDRs and the discharge authorized by the WDRs does not have the potential for causing a significant impact on the environment. See Title 14, California Code of Regulations section 15061(b)(3).

The Regional Board has notified the Discharger and interested agencies and persons of the intent to consider termination of WDRs Order No. 91-097, and has provided them with an opportunity to submit comments. The Regional Board, in a public meeting, heard and considered all comments and testimony pertaining to the Order.

IT IS HEREBY ORDERED that Order No. 91-097 is terminated, except for enforcement purposes.

The Executive Officer of this Regional board is authorized and is hereby directed, to certify and submit copies of this Order to the Discharger, and to such individuals and governmental agencies that request it.

I, Samuel Unger, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Los Angeles Region on December 8, 2016.

Samuel Unger, P.E.
Executive Officer
