Dear Mr. Goehring:

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND REVISED WASTE DISCHARGE REQUIREMENTS (ORDER NO. 97-045) – EAST PASADENA WATER COMPANY, WELL NOS. 8 AND 10, LOCATED AT THE MOUNTAIN VIEW AVENUE, PASADENA (NPDES NO. CAG994001, CI-8131)

Discharge of groundwater from the East Pasadena Water Company, Well No. 10, is currently regulated under NPDES General Permit No. CAG994001 (Order No. 97-045) adopted by this Board on May 12, 1997. By a letter dated August 21, 2002, you requested that your coverage under General NPDES Permit Order No. 97-045 be revised to include discharge from Well No. 8, as well as from Well No. 10.

We have reviewed the information that you submitted and have revised your Monitoring and Reporting Program (MRP) to include discharge from Well No. 8. In addition, we have made other modifications to the MRP, including new reporting due dates for monitoring report submittal, additional sample collection requirements, a requirement for terminating the discharge if monitoring results indicate an exceedance, a requirement for accelerated monitoring following the exceedance of effluent limit, and a requirement for reporting the exceedance to the Regional Board.

You are required to implement the revised MRP effective upon receipt. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit.

When submitting monitoring and technical reports to the Regional Board per these requirements, please include a reference to 'Compliance File No. CI-8131 and NPDES No. CAG994001', which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine your discharge monitoring reports with other reports. Submit each type of report as a separate document.

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption
For a list of simple ways to reduce demand and cut your energy costs, see the tips at: <http://www.swrcb.ca.gov/news/echallenge.html>

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.
