Dear Mr. Skinner:

The California Regional Water Quality Control Board, Los Angeles Region (Regional Board), is the public agency with primary responsibility for the protection of ground and surface water quality for all beneficial uses within major portions of Los Angeles and Ventura Counties, including the referenced facilities subject to Orders above.

In a letter dated July 12, 2018 to the Regional Board, the Los Angeles County Department of Beaches and Harbors (DBH) stated that submittal of monitoring reports for the second quarter 2018, April through June, for the DBH facilities listed above has been delayed for the following reasons:

1. The DBH's role has been to provide certain data and review the reports. The sampling, delivery, report writing, and submission to GeoTracker has been handled by the Los

July 19, 2018

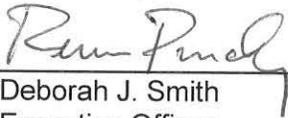

Angeles County Internal Services Department (ISD). The ISD recently informed the DBH that they would no longer be able to handle the report writing in-house but instead would have to contract the work out to a vendor.

2. The vendor that ISD planned to work with submitted a bid that was more expensive than expected. As such, the DBH had to work quickly to arrange for the reporting to be handled by a different contractor, Pacific Edge Engineering, Inc. As a result, the DBH is unable to submit the second quarterly reports by the due date of July 15, 2018. The DBH requested that the Regional Board extend the due date for these reports from July 15, 2018 to September 15, 2018 in light of these circumstances.

The DBH's request to extend the due date from July 15, 2018 to September 15, 2018 is hereby approved. For all future monitoring report submittals, the DBH is required to submit quarterly reports, specified in all accompanying Monitoring and Reporting Programs, on the recurring due dates of the 15th day in January, April, July, and October.

If you have any questions, please contact the Project Manager, Dr. Don Tsai at (213) 620-2264 (Don.Tsai@waterboards.ca.gov), or the Chief of Groundwater Permitting Unit, Dr. Eric Wu at (213) 576-6683 (Eric.Wu@waterboards.ca.gov).

Sincerely,

Deborah J. Smith
Executive Officer

SUBJECT: SECOND QUARTER 2018 DEADLINE EXTENSION REQUEST FOR BEACHES & HARBOR MONITORING REPORTS

Dear Mr. Tsai,

This letter is to inform you that submittal of monitoring reports for the second quarter 2018, April through June, for the attached Los Angeles County Department of Beaches and Harbors' (DBH) facilities has been delayed.

In 2015, the Department of Public Works transferred all responsibilities concerning Waste Discharge Requirements to DBH. Since that time, DBH has been working in conjunction with the Internal Services Department (ISD) to provide the required quarterly reports. As a small department, DBH's role in this working relationship was only to provide certain data and to review the reports. The sampling, delivery, report writing, and submission to Geotracker has been handled by ISD. However, ISD recently informed DBH that they would no longer be able to handle the report writing in-house but instead would have to contract the work out to a County vendor.

The vendor ISD planned to work through submitted a bid that was far more expensive than expected. As such, DBH had to work quickly to arrange for the reporting to be handled by a subcontractor of one of their hazardous materials vendors at a substantial cost savings over the ISD option. As a result, we will be unable to submit the second quarterly reports by the due date of July 15, 2018. At this point, we respectfully request a 60-day deadline extension to properly submit all required data. Please note that DBH, along with the subcontractor, Pacific Edge Engineering, Inc., is working to provide all necessary documentation as soon as possible and prevent any further delays in the future.

If you have any questions, please contact John Carey Skinner at 424-526-7846.

Sincerely,

 7/12/18
John Carey Skinner

Administrative Analyst, Operational Services Division
