Dear Mr. Reed:

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS – FUEL CONTROLS, 3605 EAST SPRING STREET, LONG BEACH, CALIFORNIA (NPDES NO. CAG834001, CI-8506)

We have completed our review of your application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES). You have proposed to discharge treated groundwater from groundwater cleanup activities at the above-referenced site.

Based on the information provided, the proposed discharge of groundwater meets the conditions specified in Order No. R4-2002-0125, *Waste Discharge Requirements for Treated Groundwater and other Wastewaters From Investigation and/or Cleanup of Petroleum Fuel-Contaminated sites to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties (General NPDES Permit No. 834001)*, adopted by this Board on July 11, 2002.

Enclosed are your Waste Discharge Requirements, which also serve as your General NPDES permit, consisting of Order No. R4-2002-0125 and Monitoring and Reporting Program No. CI-8506. The discharge limitations in Part F of Order No. R4-2002-0125 are applicable to your discharge. The groundwater discharges from the cleanup project to Los Cerritos Channel, therefore, the discharge limitations in Attachment B are not applicable to your discharge. Prior to discharge, a representative sample of the effluent shall be obtained and analyzed to determine compliance with the discharge limitations.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under Order No. R4-2002-0125. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit.

When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8506 and NPDES No. CAG834001", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.
