Dear Mr. Dahl:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—TERRA VAC CORPORATION—CARSON PLAZA, 641 E. UNIVERSITY DRIVE, CARSON, CALIFORNIA (NPDES NO. CAG914001, CI-8536)

In our letter dated February 11, 2003, we informed you that the subject discharge is regulated under Order No. R4-2002-0107, *Waste Discharge Requirements for Treated Groundwater From Investigation and/or Cleanup of Volatile Organic Compounds Contaminated-Sites to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on May 23, 2002, which also serves as your NPDES permit.

In your letter dated May 31, 2007, you informed Regional Board staff that the above-referenced project was discontinued in December 2006. Since the NPDES permit is no longer necessary, you requested termination of your coverage under the above-referenced General NPDES Permit. On August 9, 2007, Board staff inspected the project site and verified that there is no discharge of groundwater from the project site. Since there is no discharge of groundwater from the site, coverage under Board Order No. R4-2002-0107 for the subject project is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain waste discharge requirements.

If you have any questions, please contact Dr. James Tang at (213) 576-6696.

Sincerely,

Deborah J. Smith
Interim Executive Officer
