

Los Angeles Regional Water Quality Control Board

March 21, 2017

Mr. Louis Atwell, Public Works Director
City of Inglewood
1 W. Manchester Boulevard, 3rd Floor
Inglewood, CA 90301

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS—CITY OF INGLEWOOD, WELL NOS. 1, 2, 4 AND 6, ONE MANCHESTER BLVD., INGLEWOOD, CALIFORNIA (NPDES NO. CAG994005, CI-8560)

Dear Mr. Atwell:

The subject discharges are regulated under Order No. R4-2003-0108, General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of *Groundwater from Potable Water Supply Wells to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003.

On November 18, 2014, the State Water Resources Control Board (State Water Board) adopted the Statewide National Pollutant Discharge Elimination System (NPDES) Permit for Drinking Water Systems Discharges to Waters of the United States (Order WQ 2014-0194-DWQ, General Order No. CAG140001). The Order provides regulatory coverage for short-term or seasonal planned and emergency (unplanned) discharges resulting from a water purveyor's essential operations and maintenance activities undertaken to comply with the federal Safe Drinking Water Act, the California Health and Safety Code, and the State Water Board's Division of Drinking Water permitting requirements for providing reliable delivery of safe drinking water. The Order became effective on February 26, 2015. The Order WQ 2014-0194-DWQ requires water purveyors to file Notice of Intent (NOI) to enroll under this permit or file Notice of Non Applicability (NONA) if the water purveyor is an Municipal Separate Storm Sewer System (MS4) permittee or co-permittee, named on a State Water Board or a Regional Board issued MS4 permit that also authorizes discharges from drinking water systems, and all drinking water system discharges solely to a municipal separate storm sewer system(s) (MS4).

The City of Inglewood is one of the MS4 permittee named on Los Angeles Regional Water Quality Board issued MS4 permit that also authorizes discharges from City of Inglewood drinking water systems into its own MS4 system. On August 31, 2015, City of Inglewood filed NONA with State Water Board and requested an exemption from enrollment requirements under the Statewide Drinking Water Systems Discharge Permit. Since the City has filed the NONA, General NPDES Permit issued to city by Los Angeles Regional Water Quality Board under Order No. CAG994005, CI-8560 is hereby terminated, except for enforcement purposes.

If you have any questions, please contact Namiraj Jain at (213) 620-6003.

Sincerely,

Samuel Unger, P.E.
Executive Officer
