### TERMINATION OF GENERAL WASTE DISCHARGE REQUIREMENTS AT FORMER SQUARE D FACILITY, 4335 EAST VALLEY BOULEVARD, LOS ANGELES, CALIFORNIA (ORDER NO. R4-2002-0030, SERIES NO. 031, CI NO. 8608, GLOBAL ID. WDR 100000581)

Dear Ms. Redfield:

On August 12, 2003, this Regional Water Quality Control Board (Regional Board) informed you that the subject discharge is regulated under Order No. R4-2002-0030 which specifies your Waste Discharge Requirements (WDR).

In the letter dated May 30, 2012, you notified the Regional Board that you ceased molasses injection for this site and that you requested termination of the WDR. Therefore, the coverage for the subject facility, under Board Order No. R4-2002-0030, is hereby terminated with the exception of enforcement under the terms of the permit. However, a new WDR permit will be required for the additional pilot testing proposed in the approved *Remedial Action Work Plan Addendum* dated August 26, 2011. The submitted WDR application will be processed once a Remedial Design document is approved.

If you have any questions, please contact the Project Manager, Dr. Ann Chang at (213) 620-6122 or the Chief of Groundwater Permitting Unit, Dr. Eric Wu at (213) 576-6683.

Sincerely,

  
Samuel Unger, P.E.  
Executive Officer
