**TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE REQUIREMENTS
– WELL PUMPING AND AQUIFER TESTING BY LEIGHTON AND ASSOCIATES AT
NEWHALL LAND SITE LOCATED AT POTRERO CANYON, WEST OF PICO CANYON
ROAD, CALIFORNIA (ORDER No. 93-010, FILE No. 05-093, CI No. 8901)**

Dear Mr. Herren:

In our letter dated July 7, 2005, we informed you that the subject discharge is regulated under Order No. 93-010, which specifies your Waste Discharge Requirements (WDR).

In a letter dated May 1, 2006, you notified the Regional Board that the installation of groundwater wells for geotechnical investigations in Potrero Canyon have been completed and you would like to request termination of the WDR.

Monitoring reports were received by the Regional Board on a quarterly basis in which all reporting requirements have been met. Since you have completed the installation and investigation activities and no longer need the WDR, the coverage under Board Order No. 93-010, CI No. 8901 for the subject facility is hereby terminated.

If you have any questions, please contact Project Manager, Mr. Orlando Gonzalez, at (213) 620-2267 or Chief of Groundwater Permitting Unit, Dr. Rebecca Chou, at (213) 620-6156.

Sincerely,

Tracy J. Egoscue
Executive Officer
