Claim No. 7002 2410 0005 0647 8710

Dear Mr. Eranio:

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS – CRESTVIEW MUTUAL WATER COMPANY, WATER WELL NO. 6, 109 N. AVOCADO PLACE, CAMARILLO, CALIFORNIA (NPDES NO. CAG994005, CI-8964)

We have completed our review of your application for a permit to discharge wastewater under the National Pollutant Discharge Elimination System (NPDES). Up to 2.2 million gallons per day of groundwater will be discharged during the construction, well development and aquifer pumping test for Well No. 6. It will be necessary to discharge at this rate during the pumping tests so as to properly develop the well. Well development and aquifer tests will be completed within one month after the well construction.

Based on the information provided, the proposed discharge of groundwater meets the conditions to be regulated under Order No. R4-2003-0108, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Potable Water Supply Wells to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. R4-2003-0108 and Monitoring and Reporting Program No. CI-8964. Since the groundwater analytical data provided meets the screening criteria, full enrollment under this general permit is authorized and the discharge limitations in Part E.1. of Order No. R4-2003-0108 are applicable to your discharge. The groundwater discharge flows into Revolon Slough, thence into Calleguas Creek (Below Potrero Road). Therefore, the discharge limitations in Attachment B of Order No. R4-2003-0108 are not applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8964 and NPDES No. CAG994005", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

California Environmental Protection Agency

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.

Mr. Robert Eranio
Crestview Mutual Water Company
(Water Well No. 6)

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

We are sending a copy of Order No. R4-2003-0108 only to the applicant. For those on the mailing list, please refer to the Board Order sent to you previously or download a copy of the Order from our website at http://www.swrcb.ca.gov/rwqcb4/html/permits/general_permits.html.

If you have any questions, please contact Vilma Correa at (213) 576-6794.

Sincerely,

Jonathan S. Bishop
Executive Officer
