Claim No. 7002 2410 0005 0647 8796

Dear Mr. Kavounas:

REVISED MONITORING AND REPORTING PROGRAM, GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS – GLORIETTA WELL NOS. 3, 4, 6 AND VERDUGO WELL NOS. A & B, VARIOUS LOCATIONS WITHIN THE CITY OF GLENDALE, CALIFORNIA (NPDES NO. CAG994005, CI-8995)

Discharge of groundwater generated from well purging, redevelopment, and conducting of pumping tests from the above-referenced project is currently regulated under General NPDES Permit No. CAG994005, Order No. R4-2003-0108 adopted by this Board on August 7, 2003. On December 1, 2005, the City of Glendale was enrolled under this general NPDES permit. The City of Glendale has requested a revision of the Monitoring and Reporting Program (MRP) to eliminate constituents that have no reasonable potential to be in the groundwater discharge.

Staff has reviewed your request and concurs with your proposed revision. Enclosed is the revised MRP No. CI 8995, which replaces your existing MRP. This revised Monitoring and Reporting Program is effective upon receipt. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8995 and NPDES No. CAG994005", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

We are sending a copy of Order No. R4-2003-0108 only to the applicant. For those on the mailing list, please refer to the Board Order sent to you previously or download a copy of the Order from our website at http://www.waterboards.ca.gov/rwqcb4/html/permits/general_permits.html.

California Environmental Protection Agency

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.
