Dear Ms. Glantz:

Our letter of December 13, 2011, transmitted a tentative order to terminate Waste Discharge Requirements (WDR), Order No. R4-2006-0072, for using a non-pathogenic chlorinated-ethene degrading microbial consortium, referred to as KB-1, to bioremediate chlorinated volatile organic compounds (VOCs) in shallow groundwater at the former Reyes Clarifier Vicinity Site located at 18744 South Reyes Avenue, Compton, California.

Pursuant to Division 7 of the California Water Code, this Regional Board at a public meeting held on February 2, 2012, reviewed the tentative order, considered all factors in the case, and adopted Order No. R4-2012-0025 (a copy is enclosed) relative to the termination of the WDR. No written comments were received related to the termination of the WDR.

If you have any questions or need additional information, please contact the Project Manager, Mr. David Koo at (213) 620-6155 or me at (213) 576-6683.

Sincerely,

Eric Wu, Ph.D., P.E.

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
LOS ANGELES REGION

ORDER NO. R4-2012-0025

**TERMINATION OF WASTE DISCHARGE REQUIREMENTS
FOR DISCHARGES TO LAND/GROUNDWATER
(Cal-Style Furniture Manufacturing Company)**

The California Regional Water Quality Control Board, Los Angeles Region (Regional Board) finds:

1. On September 14, 2006, this Regional Board adopted Waste Discharge Requirements (WDR) contained in Order No. R4-2006-0072 for Cal-Style Furniture Manufacturing Company (Discharger) to use a non-pathogenic chlorinated-ethene degrading microbial consortium, referred to as KB-1, to bioremediate chlorinated volatile organic compounds (VOCs) in shallow groundwater at the former Reyes Clarifier Vicinity Site located at 18744 South Reyes Avenue, Compton, California.
2. On November 16, 2011, the Discharger notified the Regional Board that the most recent groundwater monitoring results collected in September 2011 indicated that on-site VOC concentrations have been successfully reduced and no additional injections are planned.
3. Because no further injection activities are anticipated at the subject site, the Regional Board finds that Order No. R4-2006-0072, with waste discharge requirements, is no longer applicable and shall be terminated, except for enforcement purposes.
4. The termination of Order No. R4-2006-0072 is exempt from the provisions of Chapter 3 (commencing with Section 21100), Division 13, Public Resources Code, in accordance with California Water Code (CWC) section 13389.

The Regional Board has notified the Discharger and interested agencies and persons of its intent to consider termination of Order No. R4-2006-0072, and has provided them with an opportunity to submit comments.

The Regional Board, in a public hearing, heard and considered all comments and testimony pertinent to the Order.

IT IS HEREBY ORDERED that Order No. R4-2006-0072 is terminated, except for enforcement purposes.

The Executive Officer of this Regional Board is authorized, and is hereby directed, to certify and submit copies of this Order to the Discharger, and to such individuals and governmental agencies that request it.
