GENERAL WASTE DISCHARGE REQUIREMENTS FOR SPECIFIED DISCHARGES TO GROUNDWATER – VENTURA COUNTY WATERSHED PROTECTION DISTRICT – SANTA PAULA CREEK, EMERGENCY STREAMBANK PROTECTION, SANTA PAULA, CALIFORNIA (Order No. 93-010, CI-9182, Series No. 026, File No. 06-198)

Dear Mr. Sheydayi:

Reference is made to your letter dated March 22, 2007, requesting that we terminate your enrollment under general Order No. 93-010 for dewatering during construction of emergency streambank protection measures at the above site. In your letter, you indicated that the project is now complete and the discharge has terminated. Regional Board staff conducted a field inspection on May 6, 2007 and verified that no discharges are occurring.

Since there is no discharge of wastewater from the site, coverage under Board Order No. 93-010 for the facility is hereby terminated. If you have any questions, please contact Enrique Casas at (213) 620-2299.

Sincerely,

Deborah J. Smith
Interim Executive Officer
