CERTIFIED MAIL  
RETURN RECEIPT REQUESTED  
CLAIM NO. 7001 1140 0000 1129 6241

Dear Mr. Adams:

**COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS – CITY OF LOS ANGELES DEPARTMENT OF WATER AND POWER – MANHATTAN WELLS REHABILITATION AND START- UP PROJECT, 6219 S. MANHATTAN PLACE & 6222 S. St. ANDREWS PLACE, LOS ANGELES, CALIFORNIA (NPDES NO. CAG994005, CI-9207)**

We have completed our review of your application for a permit to discharge wastewater under the National Pollutant Discharge Elimination System (NPDES). You have proposed to discharge up to 2.5 million gallons per day (MGD) of groundwater during well development and start-up period from the above-referenced facility. It is necessary to discharge at this flowrate to properly test the aquifer and the potable water supply well pumps.

Based on the information provided, the proposed discharge of groundwater meets the conditions to be regulated under Order No. R4-2003-0108, *Waste Discharge Requirements for Discharges of Groundwater from Potable Water Supply Wells to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties (General NPDES Permit No. CAG994005)*, adopted by this Board on August 7, 2003.

Enclosed are your Waste Discharge Requirements, which also serve as your General NPDES Permit, consisting of Order No. R4-2003-0108 and Monitoring and Reporting Program No. CI-9207. Since the groundwater analytical data provided meets the screening criteria, full enrollment under this general permit is authorized and Section E.2. will not be applicable to your discharge. However, the discharge limitations in Section E.1. of Order No. R4-2003-0108 are applicable to your discharge. Discharge from the project drains to Bollana Creek. Therefore, the discharge limitations in Attachment B are not applicable to your discharge. Prior to starting discharge, a representative sample of the effluent must be obtained and analyzed to determine compliance with the discharge limitations.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under Order No. R4-2003-0108. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-9207 and NPDES No. CAG994005", which will assure that the reports

are directed to the appropriate file and staff. Also, please do not combine your discharge monitoring reports with other reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

We are sending Board Order No. R4-2002-0108 only to the applicant. For those on the mailing list, please refer to the Board Order previously sent to you. A copy of the Order will be furnished to anyone who requests it, or it can be obtained at our web site address: [http://www.swrcb.ca.gov/~rwqcb4/html/permits/general\\_permits.html](http://www.swrcb.ca.gov/~rwqcb4/html/permits/general_permits.html).

If you have any questions, please contact Dr. James Tang at (213) 576-6696.

Sincerely,

Chief Deputy 2.0.  
for

Jonathan S. Bishop  
Executive Officer
