San Clemente, California 92672

**TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE
REQUIREMENTS – RREEF SAN FERNANDO (FORMER NEWLOWE PROPERTIES), 3332
SAN FERNANDO ROAD, LOS ANGELES, CALIFORNIA (ORDER NO. R4-2007-0019, SERIES
NO. 047, CI-9366)**

Dear Mr. Cousineau:

In our letter dated January 25, 2008, we informed you that the subject discharge is regulated under Order No. R4-2007-0019, (Series No. 047), which specifies your Waste Discharge Requirements (WDR).

In a letter dated June 3, 2010, you notified the Regional Board that you ceased potassium permanganate injection for this site and that you requested termination of the WDR.

Because the ongoing remediation does not plan to continue to inject potassium permanganate, you no longer need the WDR. The coverage under Board Order No. R4-2007-0019, (Series No. 047), for the subject facility is hereby terminated with the exception of enforcement under the term of the permit.

If you have any questions, please contact the Project Manager, Mr. Larry Moore, at (213) 576-6730 or the acting Section Chief of Groundwater Permitting and Landfills, Dr. Rebecca Chou, at (213) 620-6156.

Sincerely,

Samuel Unger, P.E.
Interim Executive Officer
