Environmental Protection

January 28, 2011

Mr. Eric Bergh
Calleguas Municipal Water District
2100 Olsen Road
Thousand Oaks, CA 91360

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—CALLEGUAS MUNICIPAL WATER DISTRICT—HUENEME OUTFALL REPLACEMENT HYDROSTATIC TEST PROJECT, PORT HUENEME BEACH PARK AND POINT MUGU, PORT HUENEME, CALIFORNIA (NPDES NO. CAG674001, CI—9394)

Dear Mr. Bergh:

In our letter dated September 17, 2009, we informed you that the subject discharge is regulated under Order No. R4-2009-0068, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Discharges of Low Threat Hydrostatic Test Water to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, which also serves as your NPDES permit.

On April 20, 2010, you informed Regional Board staff that the above-referenced project was completed in April 2010 and the subject NPDES permit is no longer needed.

On January 24, 2011, Board staff inspected the facility and verified that there is no discharge of hydrostatic water to the storm drain. Since there is no discharge from the site to the storm drain, coverage under Board Order No. R4-2009-0068 for the subject facility is hereby terminated. Please note that if future discharges of hydrostatic test water to surface water becomes necessary, you must file a Report of Waste Discharge with this office and obtain Waste Discharge Requirements (WDRs) prior to discharging any hydrostatic test water from the site to surface waters.

If you have any questions, please contact Vilma Correa at (213) 576-6794.

Sincerely,

Samuel Unger
Executive Officer
