CERTIFIED MAIL
RETURN RECEIPT REQUESTED
CLAIM NO. 7002 0860 0006 4858 9098

Dear Mr. LaCavera:

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) AND WASTE DISCHARGE REQUIREMENTS—VOPAK TERMINAL LOS ANGELES INC.—INLAND TERMINAL HYDROSTATIC TEST PROJECT, 2200 EAST PACIFIC COAST HIGHWAY, WILMINGTON, CALIFORNIA (NPDES NO. CAG674001, CI-9554)

We have completed our review of your application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES). You propose to discharge up to 0.9 million gallons per day of hydrostatic test water from the above-referenced project site.

Based on the information provided, the proposed discharge of hydrostatic test water meets the conditions to be regulated under General Permit No. CAG674001, Order No. R4-2009-0068, *Waste Discharge Requirements for Discharges of Low Threat Hydrostatic Test Water to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties (General NPDES Permit No. CAG674001)*, adopted by this Board on June 4, 2009.

Enclosed are your Waste Discharge Requirements, which also serve as your General NPDES Permit, consisting of Order No. R4-2009-0068 and Monitoring and Reporting Program No. CI-9554. The discharge limitations in Part V. A. of Order No. R4-2009-0068 for the specific constituents listed on the Table with the enclosed Fact Sheet are applicable to your discharge. Discharge from the project site drains to the Dominguez Channel. Therefore, the discharge limitations in Attachment B are not applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under Order No. R4-2009-0068. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-9554 and NPDES No. CAG674001", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine your discharge monitoring reports with other reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written request for termination of your enrollment under the general permit in a separate letter, when your project has been completed and the permit is no longer needed. Beware that the annual fee covers the fiscal year billing period beginning July 1 and ending June 30, the following year. You will pay full annual fee if your request for termination is made after the beginning of new fiscal year beginning July 1.

California Environmental Protection Agency

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.
