
Los Angeles Regional Water Quality Control Board

May 21, 2019

Mr. Stephen D. Comley, Manager
Safety, Health and Environmental
Vopak Terminal Los Angeles Inc.
401 Canal Avenue,
Wilmington, CA 90744

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—VOPAK TERMINAL LOS ANGELES INC.—INLAND TERMINAL HYDROTEST PROJECT, 2200 EAST PACIFIC COAST HIGHWAY, WILMINGTON, CALIFORNIA (NPDES NO. CAG674001, CI—9618)

Dear Mr. Comley:

In our letter dated August 25, 2011, we informed you that the subject discharge is regulated under Order No. R4-2009-0068, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Groundwater Discharges of Low Threat Hydrostatic Test Water to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 4, 2009.

We have reviewed your October 18, 2018, letter which requested termination of your coverage under the General NPDES Permit. The letter indicated that the project was completed and that the subject NPDES permit is no longer needed.

On May 17, 2019, Board staff inspected the project site and verified that there is no discharge of hydrostatic test water from the facility to the storm drain. Since there is no discharge of wastewater from the project site, coverage under Board Order No. R4-2009-0068, General NPDES Permit No. CAG674001, CI-9618 for the facility is hereby terminated except for enforcement purposes.

Please note that if future discharges of wastewater to surface water or land becomes necessary, you must file a Report of Waste Discharge with this office and obtain appropriate Waste Discharge Requirements (WDRs) prior to discharging any groundwater from the site to surface waters or land.

If you have any questions, please contact Vilma Correa at (213) 576-6794.

Sincerely,

Renee Purdy
Executive Officer
