TERMINATION OF WASTE DISCHARGE REQUIREMENTS FOR RHO-CHEM, 425 ISIS AVENUE, INGLEWOOD, CALIFORNIA (ORDER NO. R4-2011-0192, CI 9782, FILE NO. 11-065, GLOBAL ID WDR100001874)

Dear Mr. Mastin:

Our letter of January 4, 2017, transmitted a tentative order to terminate Waste Discharge Requirements (WDRs) Order No. R4-2011-0192, and the associated Monitoring and Reporting Program, CI 9782 for a pilot test to inject carbon substrates and non-pathogenic *Dehalococcoides ethenogenes* culture, referred to as KB-1, for remediation of chlorinated volatile organic compounds (VOCs) impacted groundwater at the Rho-Chem facility, located at 425 Isis Avenue, Inglewood, California.

Pursuant to Division 7 of the California Water Code, this Regional Board at a public meeting held on March 2, 2017, reviewed the tentative order, considered all factors in the case, and adopted Order No. R4-2017-0060 (a copy is enclosed) relative to the termination of the WDRs. No written comments were received related to the termination of the WDRs.

If you have any questions, please contact the Project Manager, Mr. Peter Raftery at (213) 620-6156 (Peter.Raftery@waterboards.ca.gov), or the Chief of the Groundwater Permitting Unit, Dr. Eric Wu at (213) 576-6683 (Eric.Wu@waterboards.ca.gov).

Sincerely,

for 
Eric Wu, Ph.D., P.E.
Chief of Groundwater Permitting Unit

Enclosure: Order No. R4-2017-0060, Terminating Waste Discharge Requirements

cc: Mr. Richard Allen, California Department of Toxic Substance Control, Chatsworth
Ms. Linda Conlan, Amec Foster Wheeler
Ms. Dorothy Harley, Rho-Chem

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD

ORDER NO. R4-2017-0060

**TERMINATION OF WASTE DISCHARGE REQUIREMENTS
FOR DISCHARGES TO LAND/GROUNDWATER
(RHO-CHEM)
File No. 11-065**

The California Regional Water Quality Control Board, Los Angeles Region (Regional Board) finds:

1. On December 8, 2011, the Regional Board adopted individual Waste Discharge Requirements (WDRs) Order No. R4-2011-0192 and Monitoring and Reporting Program (MRP) No. CI 9782 for a pilot test to inject carbon substrates and non-pathogenic *Dehalococcoides ethenogenes* culture, referred to as KB-1, to remediate groundwater impacted with chlorinated volatile organic compounds (VOCs) at the Rho-Chem facility, located at 425 Isis Avenue, Inglewood, California.
2. Regional Board Order No. R4-2011-0192 allowed CEMEX, Inc. (Discharger) to inject the following carbon substrates into the groundwater: Wilclear Plus Sodium Lactate with Accelerite, emulsified oil substrate, and a pH buffer (AquaBupH™).
3. On January 26, 2012, the Regional Board revised MRP No. CI 9782 to correctly reflect the quarterly monitoring periods.
4. On August 8, 2014, the Discharger requested a material change to WDRs Order No. R4-2011-0192. The pH buffer, AquaBupH™, was no longer manufactured by EOS Remediation, LLC. It was replaced with another pH buffer named CoBupH-Mg™. On November 12, 2014, the Regional Board approved the request.
5. Because the amendment injection associated with enhanced in-situ bioremediation of VOCs ceased in November 2014, WDRs Order No. R4-2011-092 is no longer necessary and shall be terminated except for purposes of enforcement.
6. The termination of WDRs Order No. R4-2011-0192 is exempt from the California Environmental Quality Act because the termination of WDRs and the discharge authorized by the WDRs does not have the potential for causing a significant impact on the environment. See Title 14, Cal. Code Regs. § 15061(b)(3).

The Regional Board has notified the Discharger and interested agencies and persons of its intent to consider termination of WDRs Order No. R4-2011-0192 and MRP No. CI 9782, and has provided them with an opportunity to submit comments. The Regional Board, in a public meeting, heard and considered all comments and testimony pertinent to the Order.

IT IS HEREBY ORDERED that Order No. R4-2011-0192 is terminated, except for enforcement purposes.

March 2, 2017

Rho-Chem
Order No. R4-2017-0060

The Executive Officer of the Regional Board is authorized, and is hereby directed, to certify and submit copies of this Order to the Discharger, and to such individuals and governmental agencies that request it.

I, Samuel Unger, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Los Angeles Region, on March 2, 2017.

Samuel Unger, P.E.
Executive Officer
