Los Angeles Regional Water Quality Control Board

November 19, 2013

Mr. Keith Abercrombie  
General Manager  
Valencia Water Company  
24631 Avenue Rockefeller  
Valencia, CA 91355-3907

Dear Mr. Abercrombie:

**TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS—VALENCIA WATER COMPANY, WELL 201, 24050 VALENCIA BOULEVARD, VALENCIA, CALIFORNIA (NPDES NO. CAG994004, CI-9818)**

The subject discharge is regulated under Order No. Order No. R4-2008-0032, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 5, 2008.

We have reviewed your August 7, 2013, letter which requested termination of your coverage under the General NPDES Permit. The letter indicated that well spinner logging and water quality data collection have been completed, and the permit is no longer needed. The water quality data will be used in future to determine the course of groundwater treatment. On November 15, 2013, Board staff inspected the project site and verified that there is no discharge of groundwater from the project site to the storm drain. Since there is no discharge of groundwater from the site, coverage under Board Order R4-2008-0032, General NPDES Permit No. CAG994004, CI-9818 for the facility is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Namiraj Jain at (213) 620-6003.

Sincerely,

Samuel Unger, P.E.  
Executive Officer

Mr. Keith Abercrombie  
General Manager  
Valencia Water Company
